

WE ARE TREES FOR CITIES

URBAN TREES
FOR ALL, BY ALL!

TREES
FOR CITIES

ABOUT TREES FOR CITIES

We are the only UK charity working at a national and international scale to improve lives by planting trees in cities. We get stuck in with local communities to cultivate lasting change in their neighbourhoods – whether it's revitalising forgotten spaces, creating healthier environments or getting people excited about growing, foraging and eating healthy food.

OUR PROGRAMMES OF WORK

TREES FOR SCHOOLS

Our award winning work in schools involves **transforming school grounds** into leafy green oases for both the children of today and for future generations. We specialise in innovative design, high-quality planting and landscaping, and inclusive engagement of the school community. By working in partnership with children and schools, we reimagine and redesign playgrounds; introducing trees, forest gardens, food growing, outside classrooms and woodland play areas.

TREES FOR STREETS

Let's fill our streets with trees! Trees for Streets is the **National Street Tree Sponsorship Scheme** from Trees for Cities, designed to make sponsoring a new street tree as effortless as possible! Using the Trees for Streets app or website, you can check if your council is signed up to the scheme and then choose where in your street or a local park you would like a new tree. The request is then passed to your council and they will check that the location is suitable for planting. If confirmed, your donation payment will be taken and your tree will be planted during the next planting season.

INTERNATIONAL WORK

From Ica in Peru to Nairobi in Kenya and Pokhara in Nepal, we also help plant trees internationally. We work with local organisations, schools and communities to focus our tree planting projects on delivering long-term, practical solutions to make **international cities greener** and train local people with the skills and ability to secure sustainable livelihoods.

URBAN FOREST PROGRAMME

We support inclusive **community planting days** and tree-related events, such as workshops and celebration festivals, in areas of highest need and ensure that these trees are cared for in the future by building strong links with local authorities and landowners. By planting thousands of urban trees each year, we are building resilience against threats facing the natural environment. Planting a range of tree species enhances structural and functional diversity in woodlands and on city streets, as well as building resistance to pests and disease.

CORPORATE SERVICES

Whether businesses aim to enhance their sustainability strategy, take part in a corporate volunteering opportunity or create a lasting green legacy, our dedicated corporate partnerships team work with businesses to deliver bespoke, rewarding and impactful solutions. We deliver **creative solutions** to help you reach your **corporate social responsibility** objectives and can tailor our packages to suit your individual business needs.

GET INVOLVED

It costs just £6 for us to plant 1 urban tree.

Your donation today will help us plant more urban forests and help create greener, happier, healthier cities for today's and future generations.

Volunteer

Leave a lasting impact on your community by getting stuck in with one of our planting projects.

Fundraise

From cycling and baking to running and hiking, you can help raise vital funds for Trees for Cities!

TREESFORCITIES.ORG/GET-INVOLVED

IN OUR 30 YEAR HISTORY, WE'VE PLANTED OVER 1.5 MILLION TREES!

**“TREE PLANTING WITH TREES
FOR CITIES WAS A WONDERFUL
EXPERIENCE AND ONE THAT WILL
BENEFIT BOTH THE GENERATION
OF CHILDREN WHO PLANTED
THEM AND FUTURE GENERATIONS.
A FANTASTIC, WORTHWHILE AND
TOTALLY NATURAL EXPERIENCE.”**
